## MS-720L Precision Cleaning Agent

### Description:

A precision cleaning solvent that safely and quickly cleans electronic components, circuits, precision instruments, electrical contacts, relays, and switching devices. Removes oils, oxidation, and operating erosion dust. Safe for plastics including polycarbonate and ABS. Safe for most elastomers and metals including zinc and magnesium.

### Advantages:

- Ultra-Low Global Warming Potential
- Evaporates quickly
- Leaves no residue
- Safe for most plastics, electronics and metals
- RoHS compliant

### Application:

Spray surface to be cleaned with a heavy, wet spray from 4-6 inches. Work from top to bottom allowing force of spray to flush away oils, grease and other contaminants. For pin point application, use extension nozzle.
