IMPORTANT NOTIFICATION

SUBJECT: MS-907 TWO PART EPOXY ADHESIVE KIT HAS BEEN DISCONTINUED

Dear Customer,

The MS-907 contained a unique raw material that is no longer available for purchase. Due to this situation, the MS-907 kit will no longer be produced and has been discontinued.

Good News - Miller-Stephenson Chemical has developed a new and improved version, **MS-907 Plus**, which offers better properties and will be priced in comparison to the original version. We are in the final stages of completing our internal processes and expect to be in a position to offer FREE SAMPLES in approximately 2-3 weeks.

Please contact our Technical Service Dept at 1-800-992-2424 (EST) or via email to support@mschem.com to request literature and samples.

It is not our usual practice to provide such short notification. We apologize for any inconvenience this has caused and trust you will find the new product meets your requirements.

Sincerely

Miller-Stephenson Chemical Co Inc
