

April 22 Th. 2024

Dear Valued Customer,

At Chemours, we continuously evaluate market changes when making decisions on our product portfolio. Due to increased interest for low-GWP products and shifting market demands, Chemours will discontinuing the production and sale of various Vertrel™ Specialty Fluids grades by December 31 Th. 2024.

The following grades of Vertrel™ will no longer be available as of December 31 Th. 2024:

Product	Product
Vertrel™ XSI	Vertrel™ XP
Vertrel™ X-DF	Vertrel™ S-DF
Vertrel™ XE	Vertrel™ XMS plus
Vertrel™ X-DA	Vertrel™ XM

Chemours is proud to offer Opteon™ next generation, low GWP alternative solutions, that may be suitable replacement options for your applications. We invite you to contact your Chemours Account Manager to discuss alternatives and arrange samples of these materials.

We understand the challenge of qualifying a new material and we are committed to supporting you in your product transitions to Chemours low-GWP alternative solutions.

In addition, during the second quarter 2024, you would be able to place orders for additional quantities which would be produced in a single last production campaign during the third quarter 2024.

These quantities will have to be sold and delivered to you by November 1st 2024 latest.

Please contact your Chemours Account Manager should you have any questions. We appreciate your business and continued interest in Thermal & Specialized Solutions.

Sincerely,

Luc Boulleau

Global Marketing Manager
