**Subject:** Notification of Surcharge Due to U.S. Tariffs

Dear Valued Customer,

I hope this message finds you well during today's challenging economic environment. At Chemours, we deeply appreciate your trust and partnership as we navigate complexities together.

Chemours has been diligently evaluating the recent changes in U.S. trade policy and the resulting impact of tariffs on domestic production. Despite our efforts to manage and absorb these costs where possible, we have determined that an adjustment to our pricing is needed due to increased manufacturing costs.

Accordingly, Chemours will implement a **2.65% surcharge** on applicable products, effective as contracts allow or with new orders placed. This surcharge will be applied consistently across all relevant products and customer accounts.

Our commitment to providing high-quality products and reliable service remains unchanged. We continue to pursue every opportunity to optimize our supply chain and minimize further impacts to your business.

We recognize that increased costs are never easy. Please know this adjustment is a direct response to external factors beyond our control. Chemours will continue to monitor this fluid situation closely and will keep you informed of any changes.

We sincerely appreciate your understanding as we navigate these external challenges. Should you have any questions regarding how this surcharge applies to your business, your Chemours account manager is available for clarification and assistance.

Thank you for your continued trust, understanding and partnership as we adapt to this evolving landscape together.

Sincerely,

A handwritten signature in black ink, appearing to read 'Asif Aleem', is written over a light gray rectangular background.
