## 2. HAZARDS IDENTIFICATION

**Physical Hazard:** Gases under pressure – Liquefied Gas

### **Label elements:**

**Single Word:** Warning

### **Hazard Statements**

Contains gas under pressure; may explode if heated.  
May displace oxygen and cause rapid suffocation.

### **Precautionary Statements**

Protect from sunlight.  
Store in a well-ventilated place.  
Pressurized container. Do not pierce or burn, after use.

### **Hazards not otherwise classified**

May cause cardiac arrhythmia  
May cause frostbite.

### 3. INGREDIENTS

<u>Material (s)</u>	<u>CAS No.</u>	<u>Approximate %</u>
1,1,1,2 Tetrafluoroethane	811-97-2	100

### 4. FIRST AID MEASURES

**Inhalation:** If high concentrations are inhaled, immediately remove patient to fresh air. Keep person calm. If not breathing, give artificial respiration. If breathing is difficult give oxygen. Get medical attention immediately.

**Eye:** Remove contact lenses from eyes. Immediately flush with large amounts of water for at least 15 minutes, lifting eyelids until no evidence of the chemical remains. Get medical attention.

**Skin:** Flush promptly with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Get medical attention if necessary. Treat for frostbite if necessary by gently warming affected area.

**Oral:** Is not considered a potential route of exposure. DO NOT INDUCE VOMITING without medical advice. Immediately rinse mouth and drink plenty of water. Call a physician immediately.

**Notes to Physician:** Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

### 5. FIRE FIGHTING MEASURES

**Extinguishing media:** The product is not flammable. Use the media appropriate for surrounding materials.

**Fire and Explosion:** Aerosol cans may rupture under fire conditions.

**Hazardous decomposition products:** In case of fire, toxic gases (CO, CO<sub>2</sub>) along with Hydrogen halides, Hydrogen fluoride and Carbonyl halides may form.

**Specific Hazards:** Avoid contact with flame and hot surfaces because burst and toxic decomposition products may form. Vapors are heavier than air and can cause suffocation by reducing oxygen available for breathing.

**Protective Equipment for Fire-Fighters:** Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautions:** Aerosols can explode when heated. Warn personnel of this hazard and unprotected personnel should not return until safe to do so. Ventilate area. Vapors are heavier than air and can cause suffocation by reducing oxygen available for breathing. Avoid inhalation of vapors. Use an approved respirator if needed to keep exposure levels below the accepted level.

**Environmental Precautions:** Prevent further leakage or spillage, if safe to do so. This product evaporates readily.

**Spill Clean Up Methods:** Extinguish all ignition sources. Avoid sparks, flames, and heat. Ventilate.

## 7. HANDLING AND STORAGE

**Handling:** Avoid inhalation of vapors. Use in a well-ventilated area to keep employee exposure below recommended limits. Use an approved respirator if necessary. Vapors are heavier than air and accumulate in low areas. Avoid contact with naked flames and hot surfaces as toxic decomposition products can be formed. Do not get in eyes or on skin.

**Storage Conditions:** Store in a clean, dry place, not near sources of heat, in direct sunlight or where temperatures exceed 122°F/50°C.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

<u>Exposure Limits:</u>	<u>TLV (ACGIH)</u>	<u>PEL (OSHA)</u>	<u>Honeywell</u>
1,1,1,2-Tetrafluoroethane	Not Established	Not Established	1000 ppm (TWA)

\* Limit established by Honeywell International Inc.

**Engineering Measures:** Use adequate ventilation. Vapors are heavier than air and if working in confined or poorly ventilated areas, proper respiratory protection must be used to prevent exceeding the exposure limit.

**Respiratory Protection:** Mechanical ventilation, or respiratory protection with air supply should be used in low or enclosed areas. In poorly ventilated areas, or if a large release occurs, use an approved self-contained breathing apparatus (SCBA).

**Eye Protection:** Wear approved safety goggles.

**Skin Protection:** Avoid contact with skin (danger of frostbite). Wear cold insulating gloves/face shield/eye protection, if necessary. Use protective gloves when prolonged or frequently repeated contact occurs.

**Hygiene Measures:** Good personal hygiene practices are always advisable. Do not eat, drink, or smoke when using.
